HF Happenings 1000

The ZS2PE station during the SARL VHF/UHF FM Contest on 4 June

World QRP Day

If you have ever wondered what your station could achieve with low power, why not give it a try on World QRP Day, 17 June? The day was designated by the IARU to promote the use of lower power. Turn your power down and see what you can do with 5 W of CW or 10 W of SSB or data.

There are CW and SSB Centres of Activity in all the HF Band Plans and with Solar Cycle 25 on the up, there should be plenty of DX to be worked especially on the higher bands. Higher power stations are asked to respect the internationally agreed Centres of Activity and allow the QRP operators to enjoy their chosen side of amateur radio, especially on IARU World QRP Day.

HAMChallenge 2022 finalists announced

IARU Region 1 have announced the finalists of the first HAMChallenge. Region 1 says, "We received a lot of contributions, it has not been easy for the Jury to preselect 5 proposals for the finals."

For the final selection, the Jury has chosen the following proposals:
5B4AHZ for "Escape Rooms,"
EA4HDN for "AM BoB,"
HB9FEU for "A public database of fun projects for innovation,"
IU2FRL for "UrgenSat,"
ZS6GUY for "A Workbook that will showcase various aspects of the hobby." The Jeugland ARC!!

Contributions were done by individuals or teams, only one person per team is mentioned above. In addition, the Jury thanks DL2BQA and F4GOH for their excellent contributions! Although their proposals were not taken through to the final selection they receive "honourable mentions" for their ideas.

The five selected proposals now have up to 22 June to prepare a short video presenting their project and a document explaining the proposed next steps to make their proposals a reality. They should be ready for a short Q&A session to be scheduled during HAM Radio 2022, either online or in-person.

Finally, we thank all participants for their interest and invite everyone to prepare a contribution for next year. We will need to continue to innovate and prepare the future of amateur radio.
